EXTRA-MURAL INFORMATION

Sport and Cultural

Is the learner/student currently involved in an extra-mural activity? Have they received Provincial or National Colours?

Sport	At school	Privately	School and Privately	Provincial / National Colours

PARENT COMMITMENT

We understand that it is our responsibility, as parents/guardians, to cover the school fees of this student's tuition. The State provide limited funding (R14 per month) for parents who cannot pay school fees. Any shortfall in school fee payment must be covered by the rest of the parent community. Please **initial** the appropriate block.

We are able to pay the school fees as set out in The School Fee Model (E3) brochure.

We wish to make an appointment to discuss a payment plan with the School Fee Manager as we are unable to pay the School Fees.

Child is a Ward of the State (supply supporting documents).

We understand that the School requires a **three month** notice period should we decide to withdraw from **The Group of Schools** and that we will be billed for three months after receipt of the **EXIT FORM**. We have read and accept the School Policies as laid out in the Policy Documents found at www.sunvalleygroup.co.za. All the information provided herein is true and correct.

Both parents' / care givers' signatures are required.

1st Parent: _____ 2nd Parent: _____

Date: _____

CONCEPTION & BIRTH HISTORY

The survival brain grows from conception to 14 months old. Knowledge of this period helps us understand brain development and guides us in our management of your child. Please tick the appropriate block/s

- Conception—planned
- Conception—surprise
- Conception—traumatic
- Natural birth
- Natural with assistance (forceps, vacuum etc)
- Caesarean birth
- Birth trauma experienced

Please give details of any birth trauma

APGAR Score: Appearance, Pulse, Grimace, Activity, and Respiration

_____ (This can be found on their birth medical card)

PHOTOGRAPH

Attach (with prestick) a recent Passport size colour photograph of your child.

Please complete this Profile below. The results of this Profile in no way impact on our selection of students. It is designed to assist us to fully understand the brain development of your child so that we can be effective in the next Phase.

**Ratings:
4 = Strongly agree with the statement
1 = Strongly disagree with the statement**

Physical Development of the Survival Brain	4	3	2	1
Our child tends to be a little clumsy at times				
The muscle tone of our child is low. He battles to sit up and prefers to lounge.				
Our child avoids games that involve co-ordination like ball games.				
Our child can be described as hyperactive. She seldom sits still				
Our child can be described as hypoactive. He tends to be inactive and prefers to be quiet and not move around.				
Our child often complains about having a sore tummy when it is time to go to play or pre-school				

14 MONTHS TO PRE-SCHOOL HISTORY

The emotional brain grows from 14 months to 4 years. During this period the brain develops its social ability. Please tick any of the below boxes:

- Family separations (divorce)
- Conflict in the home during this period
- Deep grieving with the loss of a family member
- Trauma of a burglary, attack, car accident, fire experience (Give details please: _____)

Emotion and Social Development of the Limbic Brain	4	3	2	1
Our child battled to sleep through after 14 months and required additional support				
Our child separated with difficulty at play and pre-schools				
Our child sucked her thumb after three years				
Our child bites his nails, chews clothes or hair at times				
Our child battles with bedwetting after 5 years of age				
Our child has poor impulse control and often does things impulsively and then thinks about it				
Our child has a tendency to throw tantrums and battles to regulate the emotions.
